FRANK O. MORSE, Treasurer.

Having examined the foregoing accounts of the Selectmen and Treasurer of the town of Hebron for the year ending March 1st, 1886, we find the same correctly cast and duly vouched, as above stated.

W. C. ROSS, E. K. FOLLANSBEE, Auditors.

Hebron, Feb. 26th, 1886.

#### REPORT

OF THE

#### SUPERINTENDING SCHOOL COMMITTEE

OF THE

## TOWN OF HEBRON,

FOR THE YEAR ENDING MARCH 1, 1886.

The amount of available funds for the support of schools for the past year raised by town, literary fund, dog tax, and contributed by individuals, is \$260.43. The number of weeks of school, fifty-two, at an average expense of \$18.99 per month. There has been an attendance of 54 scholars of all ages. None were reported for non-attendance or as unable to read or write of the legally required ages.

Particular attention has been given to reading, spelling, penmanship, and the fundamental principles of mathematics; with advanced studies as the wants of pupils required. A unanimity of feeling has prevailed among teachers and members of the schools, and a marked improvement has been the result generally.

The schools have been distributed among the several districts as follows:

DISTRICT No. 1.—L. B. Sargent, Committee.

The district having completed a new school-house, Miss ELLEN E. HARDY commenced a term of seven weeks October 5. This was Miss Hardy's first term but she gave her whole time and attention to the wants of her pupils and they seconded her efforts by hard study and the result was more than expected. The examination closed with literary exercises and vocal music, all well received by the large class of visitors present.

#### DISTRICT No. 2.—J. E. Hartford, Committee.

An eight weeks' term, commencing August 31, was taught by Miss Susie W. Child. She has previously taught two terms in an adjoining district, and sustained her former reputation. There were but two scholars belonging to this school but several attended from other districts.

#### DISTRICT No. 3.—R. A. Morrill, Committee.

Miss Lilly M. Worthen taught a ten weeks' term commencing October 5. Good progress was made. More attention is paid to the ventilation of this school-house than the health of the pupils require. Irregular fissures in doors, windows, and walls afford ample ingress and egress to the gentle zephyrs for which the location is famous, yet I heard of no case of absolute expulsion of scholars by the salubrious breezes that infest our lake shore.

#### DISTRICT No. 4.—H. M. Worthley, Committee.

August 31, a term of eight weeks under the instruction of L. Della Tilton. This was her first attempt at teaching, but her efforts were a decided success. The rhetorical exercises of the scholars, followed by a paper by the teacher, was a pleasing feature of the examination exercises.

### DISTRICT No. 5.—J. P. Blodgett, Committee.

Miss Celia A. Jewell assumed the responsibilities of teacher May 4, and continued in that capacity nine weeks. Again September 14, she commenced a ten weeks' term. Comment is unnecessary. Miss Jewell is a teacher of long experience and excellent reputation, and fully sustained her record. The examination of both terms were attended by a large delegation of parents and friends who expressed much satisfaction with the promptness in recitation and the evident thorough drill and discipline. Elocutionary exercises of a superior order closed each occasion. A lack of diffidence on the part of the scholars is easily accounted for, as the school had nearly 100 visitors at different times.

In presenting the last annual school report under the old district system, it is a pleasure to state that there has been an

unparalleled interest in educational affairs during the past year. A large attendance of visitors has been reported by teachers in several districts; and parents, citizens, and friends of education have attended in large numbers nearly all the examinations for the year, not as curious visitors, but interested witnesses of scholastic efforts and have manifested pardonable pride in their own as favorite scholars, and their congratulatory remarks have bad a stimulating effect with teachers and scholars.

A wholesome home influence—ambition on the part of the scholars—a disposition to excel in uninterrupted attendance. Scholarship and deportment has placed a large number of them on the roll of honor as the subjoined list will attest.

Our scholars are of suitable age to receive proper instruction. This they should have that they may lay well the foundation of an educational structure. Don't crowd their young heads too fast but stimulate and encourage by judicious home influence, and as far as possible let term time be the children's. It is a mistaken idea that a few days absence is easily gained up, it causes a break that requires hard study to mend. Keep up a pleasant relation with teacher and scholars by an occasional visit to them at work. This many times will relieve inveterate cases of grumbling.

In closing I will say the position you have assigned me for quite a term of years has been to me a pleasant one. The educational means have been too meagre in our schools; this I regret, but hope the new dispensation may remedy this and school matters in every direction.

#### ROLL OF HONOR.

DISTRICT No. 1.

Eva M. Hopkins. Edith M. Hopkins. Edith L. Wheeler.

Ervin W. Hopkins. Harry O. Sargent.
